

Lists of UK GPs using 084 telephone numbers

[The Sunday Post](#) yesterday published a list of NHS GPs in Scotland using 084 phone numbers.

The **fair telecoms campaign** is pleased to also offer equivalent lists for the rest of the UK - England (by Area), Wales (by Health Board) and the Northern Ireland Health Board.

The data was extracted from official publications over the last few days.

 England	GP records from NHS Choices datasets
 Wales	the respective Directories for each Health Board
 Northern Ireland	Northern Ireland Practice List (pdf version) from Northern Ireland GP \ Practice lists for professional use
It is known that the above lists are not necessarily fully accurate. We have lists of GPs known to be using 084 numbers (e.g. advertised on their website and working) who do not appear on these lists.	
 Scotland	originally obtained from various publications by the Health Boards and then verified individually by ourselves and also by the Sunday Post

Statistics

A breakdown by Area / Health Board follows overleaf.

Surgery/ Practice

In some cases GPs are counted by the individual surgeries from which NHS services are provided, each of which may have its own telephone number. In other cases they are counted by practices, the established bodies contracted to provide the services. The lists are grouped by practice.
