

The un- fair telecoms football league table - 2019/20

This table identifies clubs from the Premier League, Championship, Leagues One & Two and Scottish Premiership who impose premium charges on fans to contact them by telephone.

The “Service Charge” (inc. VAT) is set by the club, applies to all calls and determines what the club earns.

Callers also have to pay an “Access Charge” set by their own telephone company. See [this list of rates](#).

We use maximum rates of 20p per minute for landlines and 65p per minute for mobiles.

A new column shows those who penalise disabled fans, by requiring telephone booking.

The un- fair telecoms football league table - 2019/20

Updated October 2019

The length of this list continues to shrink, but remains disturbing. Many cases continue to breach Ofcom requirements to accurately state the cost of calling – see [How does UK Calling affect businesses?](#).

Cases where special facilities for disabled fans are obtained by calling premium rate numbers may be seen to represent **illegal discrimination**.

Notes

The financial benefit of the “Service Charge” is commonly retained by the telephone service provider and / or ticket agency in lieu of charges that would otherwise be incurred by the club. Whether the club actually receives a cash benefit (through a “revenue share”) is irrelevant.

The financial benefit to the user is wholly out of proportion to the consequent cost incurred by the caller, as shown. The “premium rate” mechanism, including the “Access Charge”, is intended for use by those offering a genuine “phone-paid” telephone service.

For this and other reasons we have now published a briefing - [“Now is the time to stop using 084 and 087 telephone numbers”](#).

The clubs not listed either do not publish contact telephone numbers or use 01, 02 or 03 (geographic rate) numbers; these provide no financial benefit to the user. The same applies to telephone contact, other than for the purposes stated, for those in our league table.

Most callers incur no call charge when calling 01/02/03 numbers, because most people cover all such calls by selecting the appropriate inclusive call plan. High “penalty charges” are only incurred by those who call any geographic rate number outside the terms of their chosen plan.

We therefore urge all clubs, indeed all organisations, to **cease the “greed” and “foolishness” represented by using 084 / 087 numbers**.

It may be that a supplementary “telephone booking fee” is deemed appropriate to cover the additional costs incurred when offering this service. There is however no need for it to be collected indirectly and indiscriminately, with the unnecessary overhead of the “Access Charge”. See [Collecting fees for telephone booking and ordering - why use of 084 and 087 numbers for this purpose is absurd](#)

Versions of this same table were published during the 2018/9 season – see [un - Fair Telecoms league table 2018/9 v4](#).

An indication of the progress achieved by this campaign can be seen by viewing the [first published league table in 2016/7](#).
